Submit check payable to Staten Island Day Camp
for \$25 by July 5th

Fun Course

This year we are proud to offer our campers ages 7 and older an extra special & innovative program. Campers have an opportunity to work with a licensed STEM Teacher to engineer and design their own project!

This will be held within camp hours, during your child's elective period from Monday-Thursday. Enrollment for this program is on a first come first serve basis.

Campers who participate will come home with the following:

- ✓ Knowledge of Electric Power
- ✓ Experience with the design and engineering process
- ✓ Evidence of creativity, problem solving critical thinking

Pick ONE week: 7/20-7/24 or 8/10-8/14

Submit check payable to Staten Island Day Camp for \$25 by July 5th

**Your child must be attending camp during the designated week. Campers must be at least 7 years of age to participate.
